

December 15, 2008

Dear Recipient,

This letter is our request that you consider attending the Sixth International Conference on Inertial Fusion Sciences and Applications (IFSA 2009) in San Francisco, California. Although IFSA 2009 does not have any funds to offset your meeting registration, travel or per diems costs, we would nevertheless be delighted and honored if you would join us and other scientists such as yourself in the fields of inertial fusion sciences, high energy density physics, and related applications.

The three of us, Edward Moses (LLNL), Christine Labaune, (ILP), and Kazuo A. Tanaka (ILE and Graduate School of Engineering), will chair IFSA 2009. The Organizing Chairs are Bill Goldstein (LLNL), Sylvie Jacquemot (LULI), and Hiroshi Azechi (ILE). The Technical Program Committee will be co-chaired by Bruce Hammel, (LLNL), Mike Dunne (CLF), and Ryosuke Kodama (ILE).

IFSA 2009 will take place September 6 – 11, 2009 at The InterContinental Hotel in San Francisco, California. In addition to the content rich program, there will be many fascinating activities and events taking place during the program including a unique behind-the-scenes tour of the National Ignition Facility (NIF) at the Lawrence Livermore National Laboratory.

We look forward your participation in IFSA 2009 (www.ifs09.org).

Sincerely,

Edward I. Moses
